<p>What investment services and advice can you provide me?</p>	<p>We offer investment advisory services to retail investors, including providing an investment plan, ongoing monitoring of investment portfolios and an annual investment review. We offer a Financial Planning Service and an Investment Advisory Service. Our account minimum is \$500,000.</p> <p>The Financial Planning Service provides clients with a comprehensive financial plan including a cash flow analysis, scenario planning, a review of protection products, an estate planning review and a risk profile report together with a suggested asset allocation for your investment portfolio(s). This service incurs a one-time fee and is not an ongoing service.</p> <p>Our on-going investment advisory service can be offered on a discretionary or a non-discretionary service basis. Both service levels provide clients with a wealth and investment plan comprising a review of your financial goals and investment recommendations to meet those goals. This includes assisting with account consolidation and asset transfer, continued access to your financial advisor and client service team for on-going account administration. Annually we will review your financial goals and risk profile and investment performance together with a review of the total cost of investing in the previous 12 months.</p> <p>If you opt for our discretionary investment advisory service, we will monitor your portfolio on an ongoing basis and make strategic investment decisions including investment product switches and executing trades on your behalf.</p> <p>If you opt for our non-discretionary investment advisory service, you as the client will always make the final decision on the implementation of any of our investment recommendations.</p> <p>For additional information, please see Form ADV, Part 2A Firm Brochure, Item 4B – ‘Advisory Services Offered’</p> <p>Ask your financial professional: <i>Given my financial situation, should I choose an investment advisory service? Why or why not? How will you choose investments to recommend to me?</i></p>

<p>What are your legal obligations to me when acting as my investment adviser?</p>	<p><i>When we act as your investment adviser, we have to act in your best interest and not put our interest ahead of yours. At the same time, the way we make money creates some conflicts with your interests. You should understand and ask us about these conflicts because they affect the recommendations we provide you. Here are some examples to help you understand what this means.</i></p> <p>Tanager operates a white label foreign exchange brokerage called TanagerFX. This service is provided by The Currency Cloud (TCC), a UK-based fintech company. The partners established TanagerFX to help clients of Tanager who were experiencing difficulties and high costs when moving money between the UK and the US.</p> <p>Whilst Tanager receives commissions from TCC they are minimised to improve client outcomes and the firm does not operate TanagerFX as a profit centre. The advisors at Tanager do not receive any commissions from recommending TanagerFX.</p> <p>This represents a potential conflict of interest which is managed by ensuring that TanagerFX is utilised as a last resort to help clients who are experiencing problems with UK and US banks or other foreign currency brokerages. Until recently US residents were unable to access TanagerFX.</p> <p>Tanager offers clients access to a Donor Advised Fund (DAF) via the Anglo-American Charitable Foundation (AACF), a US charity. One partner is a director of this Foundation and two partners are directors of a UK-based sister charity called the Anglo-American Charity Limited.</p> <p>This represents a conflict of interest as the AACF charges clients a fee to provide a DAF and then retains Tanager to manage the investable assets. The partners who work with the two charities are not compensated for their time and Tanager keeps the DAF pricing under review to ensure that clients have the best financial outcome with their philanthropic savings.</p> <p>For additional information, please see Form ADV, Part 2A Firm brochure, Item 11 – ‘Code of Ethics, Participation or Interest in Client Transactions and Personal Trading</p> <p>Ask your financial professional: <i>How might your conflicts of interest affect me, and how will you address them?</i></p>
<p>How do your financial professionals make money?</p>	<p>Financial professionals are paid a salary and bonus, or drawings if a partner, that relate to the amount of ongoing client revenue generated by their clients on behalf of Tanager Wealth Management LLP.</p>
<p>Do your financial professionals have legal or disciplinary history?</p>	<p>NO</p> <p>Visit Investor.gov/CRS for a free and simple search tool to research us and our financial professionals.</p> <p>Ask your financial professional: <i>As a financial professional, do you have any disciplinary history? If yes, for what type of conduct?</i></p>
